

David Meunier - Biography

Dave Meunier's Total Automotive Consulting & Training group is one of the most sought after and largest provider of business solutions for shop owners in Canada. The explanation, for the success of TACT students comes from a well tested common sense approach to managing every aspect of day to day operations, starting in the bays and working its way to the income statement.

The TACT system takes great pride in the implementation success that its participants are able to achieve, in applying the systems and protocols needed to reach industry bench marks while maintaining outstanding customer satisfaction.

Dave Meunier, President of TACT, after having owned and operated his own successful repair facilities, has spent his career developing and pursuing his passion for consulting and training in the automotive industry. Since 1989 Dave has been documenting the complexities of owning a modern automotive shop; this study and analysis has lead he and his TEAM to develop ProShop. Dave owns and operates a 10 bay shop in Southeast Edmonton where he pools his knowledge and hones new intuitive ways to take away the stresses of owning a modern automotive shop while making it more profitable. The final product is released to his ProShop Clients across the country. Dave and his TEAM have worked with shop owners in facilities large and small across Canada and the United States gaining and sharing a wealth of expertise which has evolved into the ProShop Manager Program.
